VISION AND DENTAL OPEN ENROLLMENT

It's that time of year again, Open Enrollment for the Vision and Dental. If you are already participating, you will receive your renewal letter shortly. If not and you are interested, call the main office at (812) 877-1531 and request one. Remember this is a voluntary program and is **not** associated with the Pipe Trades Industry Health & Welfare. You will be required to make monthly payments or have the monthly premiums deducted from a checking/savings account.

DEADLINE TO SIGN UP IS FRIDAY, DECEMBER 16, 2022

Business Manager's Report

Mark W. Swaner

Well, here we are in the middle of the fourth quarter of the year. Summer is gone and fall is coming to an end. Some people are happy with cold weather others disappointed of summers end but either way this is where we are.

First thing to talk about is the United Association hosted a Business Managers conference in Washington, DC. Top discussion was regarding the amount of work that will come from recent Government Infrastructure bills that have recently passed. They were showing flags to where projects would land and in short order the state of Indiana was invisible. This work is power generation, semi-conductor chip plants, hydrogen production, production of fertilizer, battery plants and car and truck production. In the United States in the next five years the construction of all of these facilities will total over 800 billion dollars which is unprecedented in the history of this country. Now how does this affect us, well from what we know now it looks like around 10 billion for our jurisdiction which will entail a huge growth in our apprentice programs and our membership that will be a monumental undertaking. The other problem is that this work is not here yet and knowing of nationwide need of manpower and supply chains on equipment and building materials will be a problem so when is the question.

We are looking at many changes that will have to happen to our Educational Trust Department with additional journeyman training to help our members man this upcoming work.

We are in open enrollment for eye and dental so contact Joran at our main office if you need to sign up.

By the time this article is out nominations will be over but I hope all members take time December to go to one of our four locations and vote in our local election.

In closing I would like to wish everyone a Happy Thanksgiving and a Merry Christmas!

LOCAL 157 BENEFIT CLUB SALE

At the December 9th Union Meeting the Local 157 Benefit Club will have for sale all past t-shirts for \$5.00 each. Anyone purchasing a shirt for \$5.00 can get a kids t-shirt for free. **This sale is only available for in person sales.**

PLUMBERS & STEAMFITTERS LOCAL 157 OFFICERS

Business Manager	- Mark W. Swaner
Financial Secretary/Treasurer	- Paul "P.A." Atterson
Business Agent	- Wilbur E. "Webb" Crouch, III
Field Representatives	- Stephen A. Snyder
President	- Jonathan L. Wooten
Vice President	- Todd Boland
Recording Secretary	- Tim "Mudflap" Wright
Executive Board	- Harold J. Lawrence, Matt Melin, Steve Shaffer, Justin "Opie" Weger
Finance Committee	- Aaron Atterson, James R. Giffel, Mitchell W. Swaner
Examining Board	- Jeff Ehrlich, Jeff Lindley, Joshua Pine, Gabe Rennier
Inside Guard	- Charles Risley

Business Agent's Report

Wilbur E. "Webb" Crouch III

As of this publication there are 153 journeymen and 29 apprentices actively seeking employment with 72 members on travel jobs. For the month of September, we dispatched 117 journeymen, 19 apprentices, with 21 call backs and 50 members to travel jobs. For the month of October, we dispatched 75 journeymen, 2 apprentices, with 5 call backs and 19 members to travel jobs.

The Marathon fall TAR was successful with Senco being awarded extra work on top of what was scheduled. Local 157 members were extremely productive with excellent craftsmanship according to Senco supervision. There will be another TAR in March or April with pre-TAR work starting the first part of 2023. Thank you to all members who performed at their highest level during this project.

Central State Construction/Hannig recently signed a contract with Boulder Industries and are currently performing work at the old Pyrolex facility using Local 157 members.

Merom Powerhouse was recently purchased by Halador. They will have substantial 60+ day outages in 2023 and 2024. I will keep you informed as more information becomes available.

We are still actively seeking apprentice applicants at job and career fairs, high schools and junior colleges in Indiana and Illinois. The Wabash Valley Building Trades is currently working towards setting up a career fair in Terre Haute for all area schools encompassing 10 counties. This will be for Building Trades Unions recruitment only.

We are on the cusp of literally billions of dollars' worth of work across our entire jurisdiction. We are in the process of setting up training for the needs of upcoming projects. If interested check with the Training Department to enroll in classes.

Travel work remains steady and if you are interested in a certain project, call me and I will do my best to get you there.

In closing, I would like to congratulate all of our new Journeymen and women and wish them success in their future

Financial Secretary Treasurer's Report

Paul "P.A." Atterson

I am sitting here at my desk, thinking where did the time go? This is my final article.

Over the last 40 plus years I have been blessed beyond belief. The trade has afforded me so many adventures. I have met thousands of people from all over the country. Some I have worked side by side with the tools. Others I have met through my days as a Local 157 Instructor attending classes in Ann Arbor, MI. at the UA's Instructor Training Program These were some of my proudest moments. I knew I was not the best hand out there. But I also knew I liked young people and felt I could relate and was good at explaining our world to them. I think when an apprentice you have helped along the way, shows up on a job, and you see that person has become a good hand, you can't help feeling pride.

In 2015 Mark Swaner and Webb Crouch asked me if I would be interested in joining them and running for Financial Secretary/Treasurer. Six years later, I am extremely happy I said yes. Not only have I improved my retirement, I think our team has put our local into a much better place moving forward.

We are finally on the edge of some major work. If everything goes our way, we should be looking good for years to come.

In closing I want to say thank you to our membership for showing trust in me over the years. I have always tried to be respectful of everyone. In case you wondered I will spend December rolling over and helping whoever is successful winning the Financial Secretary/Treasurer position. Then I'm heading for a beach somewhere!

Field Representative's Report

Stephen Snyder

The amount of work in terms of dollars continues to increase as Biden's "build back better" plan continues to fuel investment in our Northern Construction market. As I am writing this article we have roughly 3.76 billion dollars of new work on the books in Tippecanoe, Montgomery and White Counties. Roughly \$600 million is currently underway with construction projects in various stages of completion. The remaining dollars of investment are in the various design and procurement processes with rapid changing timelines and budgets. In short; the pre-work to construction is booming!

As I reported in the last article the largest investment planned in 2023 is the new state of the art semi-conductor plant being proposed by SkyWater Tech. This 1.8-billion-dollar investment has over 100,000 square feet of clean room space. The total size of the new structure will be over 600K square feet located north of West Lafayette on 400 hundred acres of land at Purdue Discovery Park District. The process of securing federal dollars from the CHIPS Act is still moving forward with a high favorability of success. I had a chance to meet the CEO of Skywater Tech, Thomas Sonderman, to discuss our highly skilled workforce of professional women and men who are at the ready to bring in a project of this magnitude on time and under budget. We discussed past work experience, training and governmental security clearance of our labor force and how we can partner together to achieve success. The conversation was genuine and respectful.

The Sisters of Saint Francis \$43 million dollar Cancer center has started. DADodd was the successful bidder. IU Health still has a several smaller capital improvement project underway in the region which is keeping our area contractors busy to say the least. The 40-acre site \$60 million-dollar new Klondike Middle School has broken ground and is moving forward. Commercial Air was the successful bidder for this project. Structural steel is being erected, footers and bond beams are being installed and U/G plumbing is underway. Concrete supply continues to hamper construction schedules as aggregate and lime availability have derailed the delivery of ready mix to jobsites. The Mayflower Mill Middle School renovation across the river is tracking well as Commercial Air continues to lead the charge on these school projects. Tempure Pedic manufacturing facility in Crawfordsville has all but came to a standstill with air handling units 18 months out. Yet another supply chain issue that is re-writing construction schedules. The pressure vessels and piping for this chemical process is all but completed at this time. Shambaugh and Son has performed their scope of work without delay and are completely at the mercy of delivery of the AHU. Start up for this facility cannot be achieved until humidity and temperature issues are under control. NUCOR Steel is still tight lipped about the announced \$290 expansion at its Crawfordsville location. Nothing has changed or progressed with the planned in-house engineered, multi-bid packs project which is still scheduled for 3rd quarter of 2023. I will keep things updated as things progress. Skanska Contractors 3-month project at Arconic reached its 12-month duration last week. This new waste water treatment plant continues to move forward despite setbacks from owner supplied equipment delays and other supply chain issues. Evonik announced the new Site Trade Partner for maintenance and process changes at Tippy Labs in Lafayette. The successful contractor, Bilifinger, is a German owned company with a Texas base. The transition has not been smooth and our Local 157 Contractors continue to serve and execute more and more critical work as the reality of the availability of skilled trades personnel continue to work in our favor. This arrangement is still very fluid and we continue to display our value on a daily basis at this facility. All is not lost and I am optimistic that we will continue to be tier one supplier to our contractors on this site for years to come. The planned \$200 million-dollar new processing facility is still in design with a start date of 2nd quarter of 2023. The \$50 million-dollar Hypersonic Lab project at Purdue's Areo Space complex is tracking on schedule with crews winding down in the weeks ahead. Rolls Royce is continuing to design its announced \$200 million dollar expansion for the 1st quarter of 23 with preliminary work underway. HMH Contractors is leading the charge on this project. Zucrow Labs jet propulsion \$73 million dollar expansion has been awarded to a CMC with scope and bid packets being reviewed. Specialty piping package has been released with one of our contractors listed as the apparent low bidder. A notice to proceed has yet to be issued. The ground breaking is still scheduled for 4th quarter of 22. Schleman Hall continues with its \$53 million dollar renovation with bid package #2 being awarded to DADodd with a fast-track start date. Just late last month Purdue Athletics announced a \$45 million dollar renovation to Ross-Aide Stadium in 2023. Additional announcements to follow.

As you can see, we are flush with work that will provide job opportunities for our members for years to come. I encourage everyone to skill up and train up to meet this new challenge ahead. We will need licensed plumbers, orbital welders, tube benders, detailers, heavy riggers and skilled pipefitters to deliver these projects on time and under budget with quality and safety at the forefront. It is our time to answer this call.

In closing I want to express my deepest gratitude toward our nominated slate of candidates that have stepped up to serve our Local. I cannot think of any other greater service on earth than to serve our Local in these capacities. Good luck and remember ***"you miss 100 percent of the shots you do not take"!***

Shane Alumbaugh
Training Coordinator

TRAINING NEWS

From the Educational Trust Department of Plumbers & Steamfitters Local 157

Brad Robertson
Welding Coordinator

Hello Brothers and Sisters;

We will be having several classes coming up to start the training for the upcoming work projected. On December 19th through the 23rd we will be having a Draftsman/Detailer Class in Terre Haute and Lafayette from 8:00 am to 4:30 pm, and more of these classes throughout next year.

We are waiting on Orbital Machines, Hydraulic Benders and Plastic Fusion Machines. As the equipment and material come in we will start having those classes. Once received I will contact the people who have signed up and give them a start date of the classes.

I sent out a robotext a few weeks ago about these classes and have had very few people sign up. Our members will have to get trained to do this work or we won't be doing the work, someone else will. We are also going to need a lot more welders.

January 14th we will be having a Med Gas Recertification Class and test in Terre Haute. If we get enough people signed up in the Lafayette area we will have a class there as well.

January 14th we will be having an Industrial Rigging/Signaling Person Recertification Class at Terre Haute from 8:00 am to 4:30 pm. The exam will be on the 21st at 8:00 am. If enough from the Lafayette area sign up we will also have one there.

January 14th we will be having an Illinois Plumbing Code Class in Terre Haute starting at 8:00 am to 4:30 pm for 8 weeks.

Senco Construction Career Day

Attending Senco Construction's Career Day were Indiana State Pipe Trades Organizer Steve Shaffer, Local 157 Gas Distribution Organizer Tom Gofourth and Local 157 Gas Distribution Instructor Josh Sullivan.

Reaching out to area students and showing them what a career in the Building Trades and Gas Division Trades would be like.

Stephanie Morgan
Administrative Manager

During the months of August and September 2022 your Health & Welfare Plan staff processed 16,189 claims, totaling \$6,700,410.47.

In this article, I would like to outline your plan's Wellness Benefits. Many chronic diseases are preventable so being more proactive in your healthcare results in a healthier and happier you. There has been a recent reduction in the age limit for Colonoscopies. The following preventative services are processed at 100% as described below:
Routine Physical Exam: Age two (2) and over: Maximum one (1) visit per Calendar Year – office call paid at 100%. (All other Covered Charges in connection with the Routine Physical Exam will be paid under the Medical Benefit Provisions at 80% after the Deductible Amount has been met.)

Routine Cervical Cancer Screening (Pap Smear Test): One (1) per year.

Routine PSA Test (Prostate Specific Antigen for Prostate Cancer Screening): One (1) per year.

Mammogram (Breast Cancer Screening): Age forty (40) and over: One (1) per year.

Sigmoidoscopy (Colorectal Cancer Screening): Age fifty (50) and over: One (1) sigmoidoscopy every five (5) calendar years.

Colonoscopy (Colorectal Cancer Screening): Age forty-five (45) and over: One (1) colonoscopy every five (5) calendar years.

Well-Child Exam & Routine Immunizations: From birth through age twenty-four (24) months for routine well child visits and all routine immunizations recommended by the Center for Disease Control.

Routine Adult and Childhood Immunizations (age two (2) and over): If recommended by the Physician, excluding occupation or vacation travel necessity, as recommended by the Center for Disease Control.

We hope you enjoyed your Thanksgiving and wish you all a very Merry Christmas!

Congratulations!

SAMPLE BALLOT

Official Rules for Election of Officers for Plumbers & Steamfitters Local 157

The Election will be conducted on Saturday, December 3, 2022 at four Local Union Offices:

Terre Haute 7:30 am to 2:30 pm, Lafayette from 7:30 am to 2:00 pm Indiana Time
Danville and Hutsonville from 7:30 am to 2:00 pm Illinois Time.

Rules & Regulations as established by the Constitution of the United Association, The Election Committee, and the By-Laws of Local Union #157.

1. No Member shall be eligible to vote unless they have been in "good standing" in Local 157 for a period of at least one (1) continuous year immediately prior to the election date.
Laws & By-Laws, Section 24~United Association Constitution Section 124
2. Voting shall be by secret ballot and those candidates receiving the highest number of votes cast shall be elected.
Laws & By-Laws, Section 24~United Association Constitution Section 122b
3. Candidates desiring to do so have the right to one (1) observer, at the candidates own expense, at the polling place; who must also be a member in "good standing" of the Local Union.
United Association Constitution Section 122b
4. Eligible members are to present their signed Membership Dues Card, or other photo identification; and must have their name listed on the "Eligible to Vote List" provided by the United Association.
Local Union 157 Election Committee
5. All persons voting must personally sign the "Eligible to Vote" list next to their name, in the presence of a member of the Election Committee, before receiving a ballot.
Local Union 157 Election Committee
6. Members may vote for the number of candidates designated for each office, or less. Any ballot with more votes than designated will be null and void for that office.
Local Union 157 Election Committee
7. Voting by writing the name of a person not nominated shall not be permitted.
United Association Constitution Section 122b
8. Ovals on Ballots must be completely filled in and any ballot signed or having other identifying marks will be null and void.
Local Union 157 Election Committee
9. Local Union Apprentices may vote in an Officer Election after successfully completing their 3rd year.
United Association Constitution Section 148b
10. Terre Haute voting location will open promptly at 7:30 am and close at 2:30 pm, Indiana time. Lafayette voting location will open promptly at 7:30 am and close at 2:00 pm, Indiana time. Danville and Lafayette voting locations will open promptly at 7:30 am and close at 2:00 pm, Illinois time. Local Union 157 will notify each member by mail of his/her preferred but not restricted to, voting location. Any member voting more than once, WILL BE FINED \$5,000.00 and possible expulsion from the United Association. Any member voting at any other location than their preferred voting area, will be classified as a contested ballot until all "Eligible to Vote" list's have been compared and determined that the member has not voted more than once.
Local Union 157 Election Committee
11. All voters must be in a designated voting area, as determined by the Election Committee, when marking their ballots.
Local Union 157 Election Committee
12. There is to be no loitering, no smoking and no food or beverages allowed in the voting area.
Local Union 157 Election Committee
13. Handicapped eligible voters may have the assistance of an Election Committee Member in the voting booth, if required.
Local Union 157 Election Committee
14. Any tie votes affecting the determination of the winners will require a run-off election involving ONLY the candidates and/or offices affected.
United Association Constitution Section 122b
15. Final determination of the results of the Election proceedings will be resolved by the Local Union Election Committee. Any unresolved protests must be filed with the General President of the United Association within five (5) working days following the election. A copy of the protest must also be simultaneously served on the Local Union.
United Association Constitution Section 125a
